

Juris Investments

Our Mission Statement:

To provide cash advances injured victims while their claims are being settled -- through a process that is fast, easy, and strictly confidential.

About Juris Investments.

Juris Investments is a niche investment company that provides nonrecourse advances to accident victims (Claimants) with pending personal injury and negligence cases.

We have developed a simple approval process that requires minimal time and effort.

Nonrecourse Advances are an Investment, Not a Loan. If There is No Cash Award the Claimant Owes Juris Investments Nothing.

Any advance is made on a contingency basis. It is a speculative investment in the future value of a personal injury case. *It is not a loan.* The Claimant is not obligated to sign a personal guarantee or to provide any collateral, other than a security interest and lien on the proceeds of the claim itself.

We are reimbursed only from the proceeds of the case. *There is no recourse against the Claimant. The Claimant may keep the funds advanced by us if he/she loses the case.*

Advances Allow the Claimant to Avoid Financial Anxiety While the Claim is Being Settled.

A personal injury can often eliminate or significantly limit a Claimant's ability to work. In addition, the related legal claim can take months or even years to settle.

During this period a Claimant's living expenses continue while earnings are reduced and savings disappear. A Claimant may not have sufficient resources to meet his/her continuing financial obligations or basic living expenses.

Under this scenario, the financial pressure to settle a case quickly can be overwhelming. *This pressure could encourage insurance companies and defendants with deep pockets to delay a settlement in order to force the Claimant to settle the case for less than its true value.*

Our clients typically use the advances for day to day living expenses such as:

- Monthly mortgage or rent
- Medical bills
- Utility Bills
- Car payments
- Food costs and tuition payments

Juris Investments will review the financial needs of the Claimant and tailor the advances accordingly. This could be in the form of a single advance or in the form of several advances

Have questions or need assistance? Call us today! Phone Number: (585)-225-2431

Address: PO Box 26914, Rochester, NY 14626 **Phone:** 585.225.2431 **WEB:** WWW.JURISINVESTMENTS.COM

provided on a periodic (e.g. monthly) basis. If needed, we can even create a budget for the Claimant to use while the case is being settled.

The Application Process is Simple. Funds are Transferred Within 24 to 72 Hours After Approval.

To begin the process the Claimant should complete the attached application. Juris Investments encourages the Claimant or the Claimant's attorney to call us for assistance in filling out the application and/or to answer any questions.

If we decide to make an advance against the case we will enter into an Investment Agreement with the Claimant.

Approval and transfer of funds are generally made within 24 to 72 hours after the necessary papers are signed and we review the relevant records in the case.

This review includes conversations with Claimant's attorney and inspection of documents that substantiate the claim. (e.g. accident reports, medical reports, insurance coverage verification, etc.)

Funding Limits and Costs.

Juris Investments will advance up to 10% - 15% of the estimated value of the pending lawsuit, depending on the specific facts and circumstances. It is our policy to advance only those funds necessary to meet a Claimant's current financial obligations and living expenses.

The rate of return typically ranges between 2.99 to 3.99 percent per month and there is a processing fee of generally \$350.00. *There are no upfront fees or other charges. The processing fee and all other amounts are due and payable to us only if and when the case is settled and the proceeds are distributed by Claimant's attorney.*

The rate of return reflects the risky nature of the investment. We encourage all Claimants to pursue conventional financing before utilizing our services.

We will provide periodic updates on the contingent amount potentially owed to us and will request status update reports from the Claimant's attorney.

Juris Investments does not in any way interfere with the attorney's handling of the case. The decision on how to proceed with the case is completely under the control of the Claimant in consultation with his attorney. Juris Investments has no authority regarding Claimant's decision of whether and how to proceed with the case.

Note: Claimant should first speak with his/her attorney regarding a request for funds.
